SHOEBOY'S SNEAKER

SNEAKER CLEANER INTENSIVE CLEANING

MATERIALS

For most of the materials. Do not use on sensitive soft leathers, metallic or patent leather as well as materials with effect colour-finishes or leather without wet fastness.

ACTIVE AGENTS

Surfactants (cleaning substances)

Lemon oil

REINIGUNG
CLEANING

HOW TO

Remove coarse dirt and dust. Test if material is colourfast. Hold the bottle straight downwards and work the product into the surface with the brush applicator. Brush off residues with a damp cloth or wash the sneakers under running water. Always treat shoes in pairs. Repeat application if necessary. Leave to dry thoroughly. When dry waterproof the shoes with Shoebuy's Sneaker Protector.

SELLING POINTS

Intensive cleaning for sneakers of any material (exceptions above) as well as light-coloured soles, sole-edges and caps.

Removes soiling and stains.

Cleaning action enhanced by combined brush and sponge applicator.

Easy and effective to use.

Dermatologically tested.
