SHOEBUY'S SNEAKER

SNEAKER PROTECTOR PROTECTION AGAINST WATER AND DIRT

MATERIALS

For all materials and material-mixes such as any smooth or suede leather, fabric or material with TEX trim or functional membrane. Unsuitable for patent and stretch materials.

ACTIVE AGENTS

Specialised formula – repels water and dirt, preserves colour depth and provides UV protection; includes breathable waterproofing agents. Contains propane/butane propellant.

HOW TO

Remove dust and dirt. Test the material's compatibility before use. Spray evenly from approx. 30 cm away; do not soak. Do not polish or brush material while wet; leave to dry. Buff off smooth leather or brush up suede as required. Repeat for best results.

SELLING POINTS

Protects sneakers against water, soiling and stains.

Water simply runs off and dirt has no chance of sticking.

Prevents colours from fading.

Use on any material.

Preserves breathability in functional membranes and leather – recommended for GORE-TEX, Sympatex and other Tex membranes.

Easy to use.

art.-no.: **908146**
content: 250 ml spray
colour: neutral
PU: 12 pieces
